Notes to Editors:

Fever-Tree is the world's leading supplier of premium carbonated mixers for alcoholic spirits by retail sales value, with distribution to approximately 50 countries worldwide. Based in the UK, the brand was launched in 2005 to provide high quality mixers which could cater to the growing demand for premium spirits, in particular gin, but also increasingly for vodka, rum and whisky. The Company now sells a range of carbonated mixers to hotels, restaurants, bars and cafes ("On Trade") as well as selected retail outlets ("Off Trade"). Approximately 70 per cent of the Group's sales were derived from outside of the UK in financial year 2014, with key overseas markets in the US and Europe.
